SUMMARY

I am an enthusiastic Full-stack Developer and Entrepreneur. Currently, in my fourth year at KCAU University, pursuing a Bachelor of Science in Software Development, as well as a third-year student at African Leadership University, pursuing a Bachelor of Science in Entrepreneurial Leadership. I am driven by a desire and passion to create innovative, user-centric solutions that address real-world challenges.

HMy mission is to transform the educational landscape for refugees and internally displaced persons by developing applications that provide better educational opportunities and entrepreneurial skills, to enable refugee youths to realize their potential and build hopeful futures.
